

About GNH

The GNH project is funded by the Erasmus+ program within the framework of the KA220 - ADU - Cooperation Partnership in Adult Education.

The GNH project aims to support disadvantaged learners, especially migrants and refugees, to develop sustainable entrepreneurial skills. It addresses two key challenges: promoting environmental sustainability and the social and economic integration of disadvantaged people. The project raises awareness of environmentally friendly behaviour, offers innovative digital learning tools and helps learners to build sustainable businesses and improve their employability.

Goals

The Green New Home project has five key objectives

Co-funded by
the European Union

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

Goals

- 1 Defining core competencies for sustainable entrepreneurship – especially for migrants and refugees.
- 2 Develop training and assessment tools to turn disadvantaged learners into green entrepreneurs.
- 3 Promote awareness and motivation for sustainable behavior.
- 4 Improving the skills of adult educators.
- 5 Disseminate project results and secure them sustainably.

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Education and Culture Executive Agency (EACEA). Neither the European Union nor EACEA can be held responsible for them.

Participating organizations

Partners gain access to innovative training tools, expand their educational offerings and strengthen their expertise in sustainability and entrepreneurship.

Target groups

Adult educators will be equipped with new didactic tools and methods, while disadvantaged learners, especially migrants and refugees, will develop the necessary skills to build sustainable businesses.

Stakeholders & Wider Audience

The project will contribute to the European green transformation by integrating disadvantaged groups into the labour market while promoting environmentally friendly business practices. Educational institutions, NGOs and employment agencies will also benefit from the freely available project results.

Consortium

The project is implemented by a consortium of six organisations from different EU countries, each with expertise in the fields of education, sustainability, entrepreneurship and social inclusion.
